Suburb (if located in metropolitan region):		City/Town:	
Estimated Commencement Date:		Estimated Completion Date:	

The supply authority will contact the applicant to advise of a date and time to meet at the nominated site to provide relevant safety advice.

- Where work will encroach in the unsafe distance of the overhead powerlines, the Principal Contractor and/or his representative must ensure that the appropriate exclusion distances are maintained until written safety advice is received from Transgrid.
- The written Safety advice shall be issued to the nominated responsible person by a representative of Transgrid.
- Charges may apply for the Installation of aerial markers, de-energisation or relocation of overhead power lines of the provision of an approved Safety Observer (if required) to carry out the work near overhead power lines.

I have obtained a copy of the NSW Code of Practice 2006 'Work near overhead power lines' (NSW works), Energy Safe Victoria guidance (Vic works) and the relevant guidance material published by Safe Work Australia (all works) and acknowledge that I am required to maintain an exclusion zone around the overhead electric lines until such time as I receive written safety advice from Transgrid.

For a timely response it is advised you to provide any combination of the following (if applicable)

- Relevant training and/or licencing is held by all personnel including:
 - High Risk Work (HRW) License of Crane operator, boom pump operator, dogman, scaffolding tickets, EWP/boom ticket, etc.
 - Evidence of completion for Safety Observers and Operators of the following course: UETTDREL14A – Working safely near live electrical apparatus as a non-electrical worker.
- Confirmation that procedures are in place regarding:
 - Adequate protocol for observing and communication between plant operators and ground crews.
 - Emergency procedures in place regarding contact with powerlines.
 - Appropriate rescue, response and first aid measures available on site.
