

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Construction of cable bridge at Muir Road, Chullora

Structural work to start

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf

Structural work for the new cable bridge at **Muir Road, Chullora** is due to start from **Monday, 14 September 2020** and will take around nine weeks or until mid-November, weather and ground conditions permitting (see map overleaf).

Work activities

- > Installing reinforcement and pouring concrete to construct bridge abutments.
- > Installing six 30m long precast beams.
- > Pouring concrete to create a bridge surface.
- > Installing structural steel posts and protection screens.
- > Pouring concrete for bridge approaches and footpaths.
- > Installing fencing.

Out-of-hours work in mid-October will be covered by a separate notice.

Work hours

Standard work hours are **7am – 6pm, Monday to Friday** and **7am – 6pm on Saturdays**.

How will the work affect you?

- > Concreting work can generate high levels of noise, which we will make every effort to keep to a minimum.
- > Access to properties will be maintained unless we make alternative arrangements with you in advance.
- > There will be a temporary loss of street parking while work is in progress.
- > There will be temporary lane closures to ensure the safety of workers and road users. Traffic control will be in place to safely direct traffic around the site.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.
