

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Tree removal at Muir Road, Chullora

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

To construct a cable bridge crossing at **Muir Road, Chullora**, we need to remove one *Eucalyptis Fibrosa* Broad Leafed Ironbark tree on **Saturday, 22 August 2020**. The location of the tree is shown in the map overleaf.

We know trees are important to communities and we avoid the removal of trees where we can. We are working with independent and qualified arborists and City of Canterbury Bankstown to ensure there is the lowest possible impact on trees along the route. Any tree removed will be replaced with three trees as agreed with City of Canterbury-Bankstown.

Work activities

- > Establishing traffic control.
- > Cutting down the tree using a chainsaw.
- > Mulching the tree on site and removing the mulch.

Work hours

Work will take place between **7am and 1pm** on **Saturday 22 August 2020**.

How will the work affect you?

- > The work will generate some noise, which we will make every effort to keep to a minimum.
- > There will be temporary lane closures to ensure the safety of workers, road users and residents. Traffic control will be in place to safely direct traffic around the work site.
- > We will need to temporarily close the footpath. An alternative route will be provided for pedestrians.
- > Access to properties will be maintained at all times unless we make alternative arrangements with you in advance.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
