

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Work update for Yangoora Road, Lakemba

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

As you will probably be aware, TransGrid has completed a number of work activities at Yangoora Road, Lakemba. We will return to your street soon to do the remaining work.

#### Remaining work

The work activities outlined below will start from **Monday 12 July 2021** and at times will involve traffic changes as shown on the map overleaf. We expect to work on Yangoora Road **until late August 2021** but work will not be continuous during this period.

- Excavation and trenching**  
 We will open up the previously constructed joint bay and use CCTV to inspect the conduits we have already installed. As part of this work, we will also install a small communications pit for future use and dig a trench on either side of the joint bay to install new conduits (pipes) that will connect with the existing trench.
- Testing**  
 Testing the new cable involves a crew lifting the lid off the previously installed communications pits, and using hand tools to monitor the cable's performance.
- Permanent restoration**  
 We will carry out concreting work at the communications pits located in the grass verge.

Please note that the road will be resurfaced by City of Canterbury Bankstown Council. Residents will be advised by Council (or its contractor) at least 48 hours prior to work starting in Yangoora Road.

#### Work hours

Work hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

#### How will the work affect you?

- > **At times, Yangoora Road will be closed to through traffic between Wangee Road and Garrong Road. Residential access will be maintained.**
- > Some work activities will be noisy but we will make every effort to keep noise to a minimum.
- > There will be a temporary loss of street parking. We will endeavour to maximise street parking where possible.
- > An alternative route will be provided if any diversions or closures of pedestrian pathways are required.
- > Residents and businesses may experience short delays to access properties.
- > Driveway access will be maintained where possible. If we anticipate that access will be disrupted for an extended period, we will inform you in advance.

## Work activities

All activities will involve:

- > Installing temporary fencing and safety barriers.
- > Delivering plant and equipment to site.
- > Trimming trees to create a safe distance from plant and equipment (directed by a qualified arborist).
- > Using a pump/vacuum truck to remove water as required.

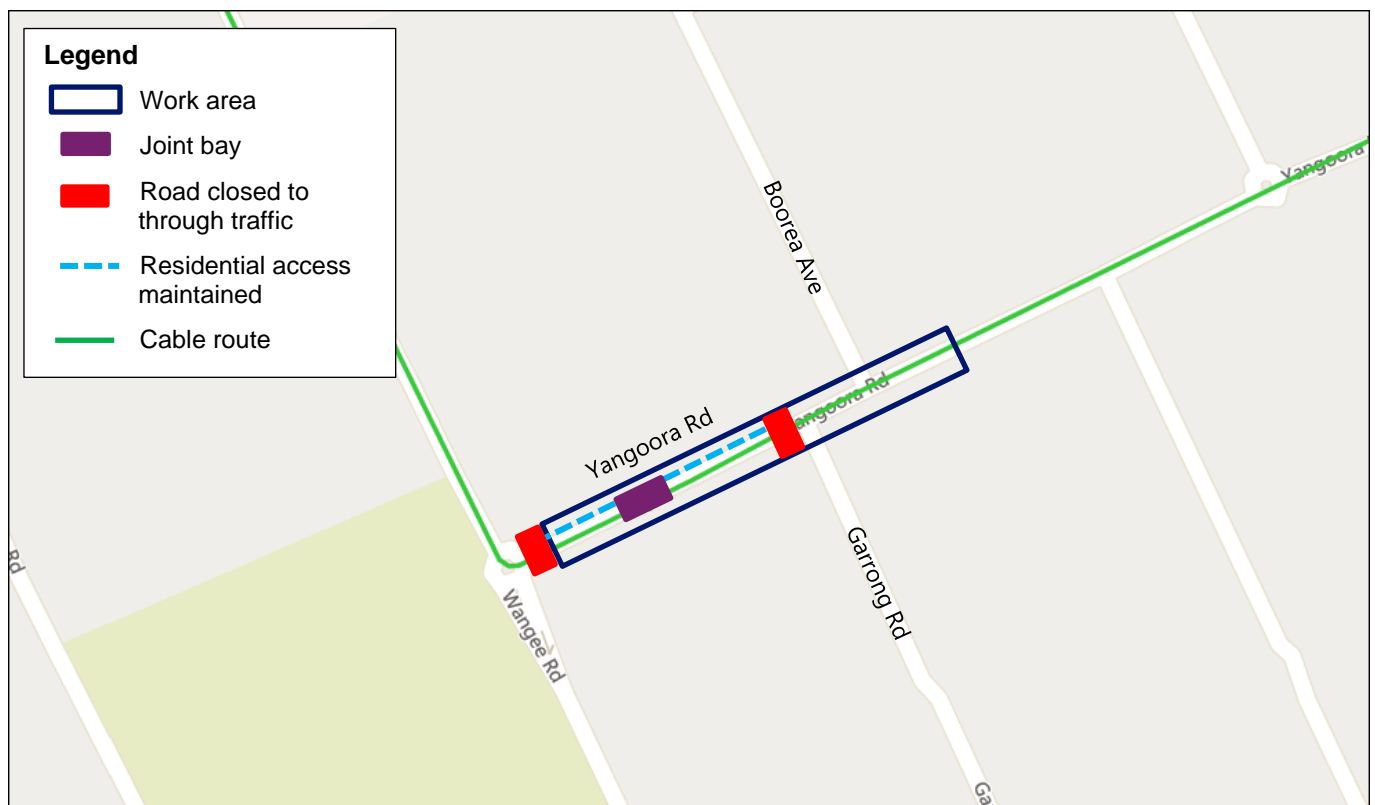

Excavation and trenching will also involve:

- > Excavating the ground around the joint bay using a road saw and excavator.
- > Digging a trenching about two metres wide.
- > Inspecting recently installed conduits using CCTV equipment.
- > Covering the road with steel plates where required to maintain traffic flow.
- > Excavating a communications pit up to two metres long and two metres wide in the road, footpath or grass verge.
- > Installing precast concrete sections in the pit to form the floor and walls of the communications pit.
- > Temporarily restoring the road surface to allow normal traffic flow.

Permanent restoration work will also involve:

- > Concreting work at the communications pits in the grass verge.

## Location of work

## Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at [psf@transgrid.com.au](mailto:psf@transgrid.com.au).

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
