

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Work update for Surrey Street, Marrickville

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

As you will probably be aware, TransGrid has completed a number of work activities at **Surrey Street, Marrickville**. We will return to your street soon to do the remaining work.

Remaining work

The work activities outlined below will start from **Monday 13 September 2021** and at times will involve traffic changes as shown on the map overleaf. We expect to work on Surrey Street **until October 2021** but work may not be continuous during this period.

- **Excavation**
We will open up the previously constructed communications pit and CCTV to inspect the conduits already installed.
- **Testing**
Testing the new cable involves a crew lifting the lid off the previously installed communications pits, and using hand tools to monitor the cable's performance.
- **Permanent restoration**
We will do concreting at the communications pits located in the grass verge and resurface the laneway and line marking the road where required.

The road surface will be permanently restored at a later stage in consultation with Inner West Council. You will be advised further regarding the delivery and timing of this activity.

Work hours

Work hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

How will the work affect you?

- > **Surrey Street will be temporarily closed for through traffic between Neville Street and Essex Street. Access for residents will be maintained.**
- > Some work activities will be noisy but we will make every effort to keep noise to a minimum.
- > There will be a temporary loss of some parking spaces.
- > An alternative route will be provided if any diversions or closures of pedestrian pathways are required.
- > Driveway access will be maintained where possible. If we anticipate that access will be disrupted for an extended period, we will inform you in advance.

Work activities

All activities will involve:

- > Installing temporary fencing and safety barriers.
- > Delivering plant and equipment to site.
- > Trimming trees to create a safe distance from plant and equipment (directed by a qualified arborist).
- > Using a pump/vacuum truck to remove water as required.

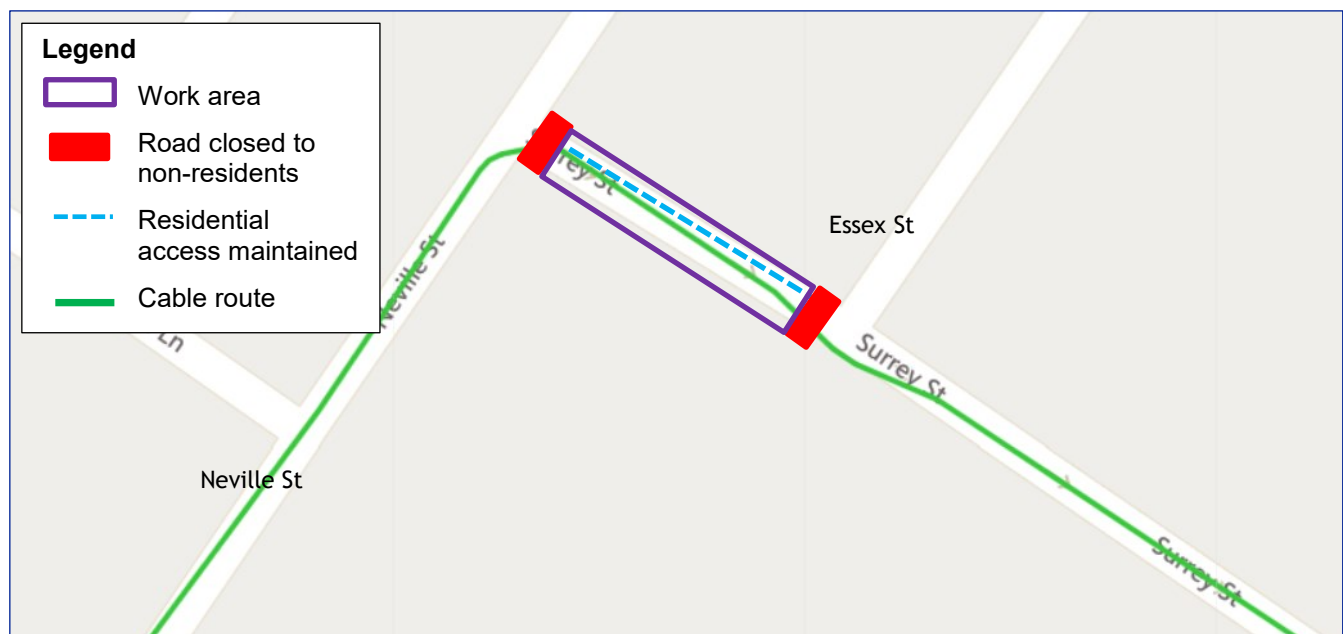

Excavation will also involve:

- > Excavating the communications pits using a road saw and excavator.
- > Checking recently installed conduits using CCTV equipment.
- > Covering any excavated sections of road with steel plates where required to maintain traffic flow.
- > Temporarily restoring the road surface to allow normal traffic flow.

Permanent restoration will also involve:

- > Concreting at the communications pits in the grass verge and line marking the road where required.

Location of work

Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at psf@transgrid.com.au.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
