

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Restoration work on Cheviot Street, Ashbury

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

You may be aware that construction activity was paused by the NSW Government under its COVID-19 Public Health Order from mid July through to early August.

With construction activity resuming, we are now preparing to restart work on **Cheviot Street** from **Monday 23 August 2021**. As a result of the construction pause we now expect to be working in your area until **October 2021**, however work may not be continuous during this period.

When returning to your area, the construction team will work under the project's COVID-19 Safety Plan. The following notes the remaining work activity to be done at Cheviot Street:

#### > Conduit inspection

We will open up the previously constructed joint bay near Roslyn Street, and use CCTV to inspect the conduits we have already installed. This work is expected to take around **one week** to complete.

#### > Permanent restoration

We will restore the kerb and do concreting at the recently installed communications pits near Malleny Street (these pits will be used as part of monitoring and control of the new electricity cable). This work is expected to take around **one week** to complete.

Please note that the road surface impacted by our work will be restored by City of Canterbury Bankstown Council. You will be advised by Council (or its contractor) at least 48 hours prior to work starting in Cheviot Street.

### Work hours

Work hours are **7am to 6pm Monday to Friday and 8am to 1pm on Saturdays**.

### How will the work affect you?

- > **Cheviot Street will be temporarily closed to through traffic between Malleny Street and Roslyn Street during work hours. Access for residents will be maintained.**
- > Some work activities will be noisy but we will make every effort to keep noise to a minimum.
- > There will be a temporary loss of some parking spaces.
- > An alternative route will be provided if any diversions or closures of pedestrian pathways are required.
- > Driveway access will be maintained where possible. If we anticipate that access will be disrupted for an extended period, we will inform you in advance.

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
