

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY CONSULTATION

### Out-of-hours work at Old Canterbury Road, Dulwich Hill

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

At **Old Canterbury Road, Dulwich Hill** (intersections with Hanks Street and Arlington Street) we will need to work outside standard construction hours due to high daytime traffic volumes. These works will generate noise. The loudest activities will be saw cutting and hammering, followed by trenching, road restoration and tree trimming.

Out-of-hours work in this location is due to start from **mid-January 2021 and will require around 45 shifts**.

### Proposed work hours

Depending on the approval from the relevant road authorities, this out-of-hours work will either take place over a weekend shutdown from 6.00pm Friday through 6.00am Monday or would be carried out between 7.00am to 7.00pm from Monday to Sunday. We will keep you updated on the final work hours at least seven days in advance.

### How will the work affect you?

- > **There will be around 45 shifts** of out-of-hours construction work in total.
- > Highly noise intensive work will be done for three hours at a time, followed by one hour of respite.
- > We aim to do high impact noise activities before midnight wherever possible.
- > High impact noise typically occurs at the start and end of shifts, as we open up road pavement and then repair it.
- > Access to properties will be maintained at all times, unless we make alternative arrangements with you in advance.

### Tell us your views

We would like your views on two different ways this work could be done:

- Option 1 - Four consecutive nights per week over 11-12 weeks, or
- Option 2 - Six consecutive nights per week over 7-8 weeks.

Please refer to the attached noise chart for typical noise levels from this type of work.

You are welcome to let the Powering Sydney's Future project team know which option you prefer by contacting us on **1800 955 588** or at [psf@transgrid.com.au](mailto:psf@transgrid.com.au) before **Monday, 14 December 2020**.

Please write **Canterbury Road** in the subject line of your email to identify the major road.

## Out-of-hours work map

Noisy activities	Tools and equipment	Approximately 45 shifts over the period below			
		January	February	March	April
Saw cutting and hammering, trenching, road restoration and tree trimming	Powered saw, excavator hammer and bucket, hand operated compactor and small roller, chainsaws	✓	✓	✓	✓

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
