

Powering Sydney's Future

POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

Construction update

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at www.transgrid.com.au/psf.

We recently delivered a letter to advise you of the remaining work activities in your area and to let you know our work would be complete by late August 2021.

However, you would be aware that construction activity was paused by the NSW Government under its COVID-19 Public Health Order from mid July through to early August.

With construction activity now resuming, we are preparing to restart work from **Monday 17 August 2021**.

Work will initially focus on installing communications cables (required to monitor and control the electricity cable), and testing the new electricity cable via the previously installed communications pits. When returning to your area, workers will follow the project's COVID-19 Safety Plan.

We now expect to be working in your area until **October 2021**, however work may not be continuous during this period.

The latest letter we sent you with information about the remaining work activities in your area, including changes to traffic and parking, is available on our website. Please visit www.transgrid.com.au/psf and go to *Document library*, then *Work notifications*.

We thank you for your ongoing patience.

Road restoration starting soon

Permanent restoration of the road surface impacted by our work will begin soon. TransGrid has arranged for the City of Canterbury Bankstown to do this restoration on our behalf. Residents and businesses in the vicinity of this work will receive notification from Council (or its contractor) at least 48 hours before road restoration begins.

Contact us

If you have any questions or concerns, please contact the Powering Sydney's Future project team on 1800 955 588 or at psf@transgrid.com.au.

131 450

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.

COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
