

**WIN A \$5,000 STEM  
VOUCHER FOR YOUR  
SCHOOL AND \$200  
PRIZE PACKS FOR  
STUDENTS IN THE  
WINNING TEAM!**

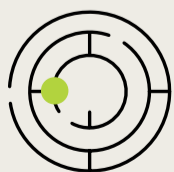

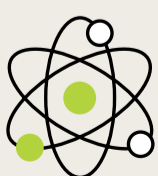

# Get your school involved in designing an interactive discovery pod.

## What is a discovery pod?

Using tools such as audio-visual, equipment or games, a discovery pod can help others learn by engaging. Can you think of a way that others can learn about energy, engineering and the environment by doing an activity? Transgrid is inviting local schools to submit their ideas for discovery pods.

The winning team will have their concept brought to life at the Discovery Hub in Wagga Wagga.
