

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Trenching work at Hanks Street, Holden Street and Second Street, Ashbury

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable electricity supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

Trenching work at **Hanks Street, Holden Street and Second Street, Ashbury**, will start from **Monday, 2 November 2020**. The work is expected to progress at around 30 metres per day, weather and ground conditions permitting.

#### Work activities

- > Delivering plant and equipment to site.
- > Tree trimming to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Cutting the road surface with a concrete saw.
- > Digging a trench about two metres wide using an excavator.
- > Installing conduits (pipes) in the trench.
- > In the event of wet weather, using a de-watering pump/vacuum truck as required.
- > Backfilling the trench and covering it with steel plates.
- > Excavating and installing ancillary pits in the road, footpath or grass verge.
- > Temporarily restoring the road surface to allow normal traffic flow.

Our team will return to permanently restore the road at a later date after the new cable has been installed. We will write to you again before this work.

#### Work hours

Standard work hours are **7am – 6pm, Monday to Friday** and **8am – 1pm on Saturdays**.

#### How will the work affect you?

- > The work will generate some noise, which we will make every effort to keep to a minimum.
- > There will be temporary lane closures to ensure the safety of workers, road users and residents, although two-way traffic flows will be maintained. Traffic control will be in place to safely direct traffic around the site.
- > There will be a temporary loss of street parking of around 100 metres while trenching is in progress.
- > Road users may experience temporary delays in accessing local properties.
- > There may be temporary closures of footpaths and cycleways, however we will always provide an alternative route.
- > If we anticipate that your driveway access may be disrupted, we will inform you in advance and discuss arrangements.

## Location of trenching work

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific work planning and access protocols at our work sites.
