

# Powering Sydney's Future

## POTTS HILL TO ALEXANDRIA TRANSMISSION CABLE PROJECT COMMUNITY NOTIFICATION

### Underbore at Cooks River and Lees Park, Campsie / Ashbury

TransGrid is installing a new underground electricity cable from Potts Hill to Alexandria. The Powering Sydney's Future project will help ensure a safe, reliable and affordable energy supply for Sydney's CBD and surrounding areas. You can view a map of the cable route at [www.transgrid.com.au/psf](http://www.transgrid.com.au/psf).

Work to drill an underbore at **Cooks River, Campsie / Ashbury**, is due to start from **mid November 2020** and will take around seven weeks, weather and ground conditions permitting.

We will set up three work areas, including one on Lindsay Street, Harmony Street and Hay Street (see map overleaf).

#### Work activities

- > Installing temporary fencing and safety barriers.
- > Tree trimming as required to create a safe distance from plant and equipment (conducted by a trained arborist).
- > Drilling under the Cooks River and Lees Park using a drill rig located in the western site compound (Lindsay Street).
- > Excavating a pit in the eastern site compound (Harmony Street).
- > Pulling conduits (plastic pipes) through the underbore.
- > Temporarily restoring the road surface to allow normal traffic flow.

Our team will return at a later date to undertake trenching work along Lindsay Street and Harmony Street. Permanent restoration of the road and any impacted areas will take place after the new cable has been pulled through. We will write to you again before these next stages of work.

#### Work hours

Standard work hours are **7am – 6pm, Monday to Friday** and **8am – 1pm on Saturdays**.

#### How will the work affect you?

- > **There will be intermittent road closures to through traffic on Harmony Street** while pipes are installed. Traffic detours and control will be in place for the safety of workers and road users.
- > The work will generate some noise, which we will make every effort to keep to a minimum.
- > There will be a temporary loss of street parking of around 320 metres while work is in progress.
- > There will be temporary lane closures to ensure the safety of workers and road users. Traffic control will be in place to safely direct traffic around the site.
- > Road users may experience temporary delays in accessing local properties.
- > If we anticipate that your driveway access may be disrupted, we will inform you in advance and discuss arrangements.

## Location of work sites

### COVID-19 Safety protocols

The health and safety of our people, customers and the community and ensuring a reliable supply of electricity to NSW and the ACT are our highest priorities during the COVID-19 crisis.

TransGrid and our contractors, as a minimum, adhere to the recommendations of SafeWork NSW along with the advice of other state and federal authorities to effectively manage the risk of COVID-19 to workers and others in the work environment. This involves maintaining effective controls including social distancing, stringent hygiene and specific access protocols at our work sites.

For an interpreter please call **131 450** and ask them to call TransGrid on **1800 955 588**. The interpreter will then assist you with translation.
